

ASL Workplace Seminars

Customized, Unique, Useful

Muskingum Valley Educational Service Center offers workplace seminars customized to the needs of businesses and organizations who want their employees to learn American Sign Language (ASL) to improve communication with their customers, clients and co-workers. Seminar surveys are conducted prior to the training to ensure that our professionals meet the unique needs of your staff.

What is American Sign Language (ASL)?

American Sign Language (ASL) is a complete, complex language that employs signs made by moving the hands combined with facial expressions and postures of the body. It is the primary language of many North Americans who are deaf and is one of several communication options used by people who are deaf or hard-of-hearing.
