

# Spring Themed Lessons

## **Down on the Farm Science/Literature**

Unravel the mysteries behind questions like "Why do pigs roll in mud?" and "Why are some eggs white and others brown?" through interactive lesson that focuses on life on a farm. Let your students discover the answers to these and other intriguing questions in a memorable learning experience they won't soon forget.

## **Egg-citing Animals Science/Literature**

No "yolk's" about it folks, this video conference will keep your students engaged for the entire event! This lesson is packed full of "dozens" of egg facts, fun, experiments, and literature. Students explore oviparous animals as well as the well known author/illustrator Dr. Seuss. This lesson is perfect for celebrating Dr. Seuss's March birthday or incorporating it into Spring or Easter classroom activities.

## **From Egg to Butterfly - Science/Literature**

Join us for a virtual exploration of the captivating life cycle of the monarch butterfly. Discover the stages of butterfly development and delve into topics such as habitat, metamorphosis, migration, and adaptation. Conclude the lesson with a fun interactive game called "Who Wants to be a Butterfly."

## **It's Not Easy Being Green! Science/Literature**

Do frogs have teeth? What do frogs eat? Where can amphibians live? This distance learning event looks at the life cycle of an amphibian and many characteristics of these slimy yet cool creatures.

# Pricing

## **EngageEd Pricing On Demand Cost:**

- \$85 per classroom per lesson
- 30-student maximum

## **Special Multi-point Costs:**

- \$135 per classroom per lesson
- 30-student maximum
- Above cost includes a classroom set of materials mailed directly to the classroom for up to 30 students.

- Overage fees and additional kit fees will apply to schools that go over the 30-student maximum.
- To register, please visit [CILC](#) (Center for Interactive Learning) or add your school directly into our [MVESC scheduling system](#). Contact Leslie Charles to create a free account.

## **Digital Learning Live Content**

**EngageEd: Live Interactive Student Sessions** is a revolutionary learning platform that offers students the opportunity to connect with professional instructors and engage in real-time lessons delivered through Zoom. This collection of live lessons is designed to foster collaboration, critical thinking, and creativity by encouraging students to work together and engage in interactive discussions and hands-on activities. Currently this content is geared towards grades PS-4th grade. The lessons are carefully crafted to connect classroom concepts with fun and engaging learning experiences, making education both enjoyable and impactful. Whether students are exploring new subjects, working on group projects, or simply participating in lively debates, EngageEd: Live Interactive Student Sessions offers a dynamic and engaging learning experience that will inspire and motivate students to reach their full potential.

# Fall Themed Lessons

## Kindness ROCKS – Spreading Friendship and Respect – Social Studies/Literature

Fostering student citizenship and soft skills through respect is a key component of the classroom. Interactive activities and hands-on exercises promote mutual respect and provide opportunities for building relationships. This lesson is ideal for the start of a new school year or for reinforcing cooperation and conflict resolution.

### Spider Insiders

(Special holiday event; dates and TBD)-  
Science/Literature

Come one, come all, if you dare. Spiders, spiders, EVERYWHERE! This interactive lesson is perfect for fall holiday integration. PreK-K students will enjoy music, literature, and science all wrapped into 1 fun and interactive lesson. Spider Insider includes activities that practice letter recognition, rhyming words, sorting /classifying, and fine motor skills. Don't miss the opportunity to explore these creepy crawlers with a bad reputation!

## BOO-TI-FUL Pumpkins- Math/Literature

Students will examine various math concepts in this "fall themed" video conference lesson. Using a pumpkin, the presenter will facilitate an interactive student lesson on circumference and estimation. Student groups work collaboratively to explore the mathematic concepts and to explain their methods of achieving the answer. Appropriate literature is used to solidify the topics explored.

# Winter Themed Lessons

## Spending Time with Mrs. Claus (Special holiday event; dates TBD) Math/Literature

Are you looking for the ultimate holiday-themed educational experience? Both students and teachers rave about this literature-based session! Classrooms will get to virtually connect with Mrs. Claus via Zoom, where she'll talk about kindness, share a holiday story, and even teach some ASL holiday words. Schools in the USA will also get to participate in a special Christmas craft activity. It's one of our most sought-after virtual learning events!

## Cobwebs for Christmas- Science/Literature

Students will learn about the all-important tradition for adding a little "bling" to their Christmas trees. Cobwebs for Christmas looks at the tradition of placing tinsel on trees. The story, Cobweb Christmas by Shirley Climo will be read, and explored in this 50-minute lesson that incorporates Science, Language Arts, and Technology standards. The charming story is set in Germany and focuses on some curious spiders paying a visit to Grandma's tree. Students will extend learning by looking at arachnids, their similarities and differences, and their needs for survival. This lesson is intended for grades K-2

## The Polar Express - Math/Literature

Experience a delightful and educational language lesson, perfect for the holiday season. "The Polar Express" focuses on the timeless tale by Chris Van Allsburg and teaches students to analyze illustrations for evidence through interactive activities. Students will also engage in a problem-solving game called "Polar Puzzlers". This lesson is designed for Kindergarten through 3rd grade, and the activities will be adapted for the appropriate grade level. Join us for a fun-filled journey on the mythical "Polar Express!"

## Celebration of Seuss (Special event to celebrate Read Across America; dates TBD)

To celebrate Read Across America, MVESC will once again provide interactive programs to spread the joy of reading with your students. Join us for this fun, interactive lesson to celebrate the birthday of the beloved children's author Dr. Seuss! This event focuses on fun facts about Theodor Seuss Geisel and his classic story "Green Eggs and Ham". Students will "show what they know" when they play "The Feud - Seuss Style" against other classrooms. Then students will express their creative side while completing a crazy Suess character craft especially designed for this program. It's a "Seussical" good time!

## Seuss 2.0 Literature/Language

This is a similar lesson to K-2 "Celebration of Seuss" lesson, however, this one uses grade appropriate activities for older students. Examine some interesting facts about the author/illustrator Dr. Seuss and complete a Lorax origami paper corner. Great way to celebrate Read Across the Planet!

## "Snow" Much Fun! - Science/Literature

Winter can often be a dull and unproductive time in the classroom, with students eager to be outside. Boost your students' spirits with a winter-themed lesson that teaches about the states of matter and the intricate beauty of snowflakes. Finally, we will use snowflake photography as a way to learn about Wilson A. Bentley. We will emphasize the importance of persistence as they learn that achieving their dreams takes time and patience!
